

Makrolon® Silent Sound UV/ AR

Solid polycarbonate sheet 8 mm

Your benefits:

- Tested safety according to ZTV-LSW06/ EN 14388
- Noise reduction DL_r : 27 dB
- 8 mm sheet thickness with extended UV protection
- Good fire rating

Solid **Makrolon® Silent Sound** sheets are clear, polished, UV-stabilized polycarbonate sheets. They offer extreme impact strength that exceeds the physical properties of other products of their class. Makrolon® sheets resist temperatures of -100 to +120 °C, exhibit high optical clarity and have a good fire rating.

Makrolon® Silent Sound sheets meet the sound technical requirements for noise reduction and the demands of road safety, stability such as form and ageing stability.

Makrolon® Silent Sound can be bent cold and also manufactured flat.

Applications:

Makrolon® Silent Sound can be used for noise protection barriers on motorways with heavy traffic, dual carriageways and railways.

The sheets offer protection against involuntary breakage and willful destruction. **Makrolon® Silent Sound** sheets can be thermoformed, cold-curved and machined with ease.
